

GLEN-ACID ORAL

Excellent Water Sanitizer

GLEN-ACID ORAL

Excellent Water Sanitizer

Glen-Acid Oral is a liquid acidifier for poultry drinking water as it acts in a targeted and complementary way from its introduction into the water and the feed and then throughout all the digestive tract. The major purpose of using this acidifier is to improve growth performance and better the profitability in poultry production. By the use of Glen-Acid Oral we make feed and digestive system grow and multiply pathogenic organisms, which increases the productivity immensely.

Benefits:

- Improves the digestion, absorption and utilization of feed
- Improves the appetizing of feed and which helps in improving feed intake
- Control of bedding quality and pododermatitis and breast blisters
- Decreases mortality ratio and increases body weight
- Improved shell quality

Indications:

- Acidification of water controls Pathogenic Strains of Salmonella, E Coli & Campylobacter
