

# GLEN E-SEL

Vitamin-E with Selenium

# GLEN E-SEL

## Vitamin-E with Selenium

Glen E-Sel is a dietary supplementation with Vitamin E and Selenium are two powerful antioxidants that fight free radicals. Both selenium and vitamin E protect cells from the detrimental effects of oxidation but they do so in different ways. Vitamin E, an antioxidant present in the cell membrane, prevents the formation of harmful free radicals. Selenium functions throughout the cell to destroy peroxides, another harmful compound. Vitamin E and Selenium also promote immune function.

## Benefits:

- Reduced mortality and increased body weight gain of nonimmunized chickens infected with E. tenella in three of four experiments
- Improved the reproductive performance of breeder pullet
- Best performance in egg production, egg mass, feed efficiency, hatchability and fertility
- Promotes the phagocytic activity of macrophages, especially at thymus level and is involved in other immune mechanisms mediated by cells

## Indications:

- Promote Immune function
- To reduce incidence of ascites and sudden death syndrome in broilers
- To reduce leg weakness syndrome in broiler
- Promotes growth and weight gain

## Recommended Dosage:

Broiler/ Breeders / Layers : 10 gm to 20 gm for 100 Birds through drinking water or 100-150 gm per kg of feed or as recommended by veterinarian

## Pack Size:

200 gm, 500 gm, 1 kg

## Composition:

Each Gram Contains

Vitamin E	100 mg
Sodium Selenite	200 ppm
